

**Version 1.1.0 - Released on 11/26/2008**

This is default Version History comment text for testing.

[Feature]: Added another really cool feature here!

[Feature]: Added the ability to export "Version History" and "What's New" to TXT, PDF, XML and the Windows Clipboard.

[Improvement]: Modified inventory input form to allow multiple adds

[Fix]: Fixed bug in PDF export where text at end of page was being clipped.

[Regression]: Rolled back to previous PDF report settings
